

| Sprint 1       |   |  |  |  |  |
|----------------|---|--|--|--|--|
| Date           | Ahmad   | Asad   | Kody   | Rayyan   | Faizan   |
| 2/26/2024      | Merged all branches to main Last Night. Nothing Done Today. Tomorrow will create PR template and add CI to Github   | Merged all branches to main Last Night. Nothing Done Today   | Nothing done today   | Nothing done today. Get started on the Get Photos API tomorrow   | Nothing done today. Create Jira tickets to be done for Settings Epic this sprint tomorrow. Start Implementation in a few days. |
| 2/27/2024      | Started working on CI for GitHub. Able to build and run unit tests but still facing trouble adding checks for Instrumented tests  | Nothing done today   | Nothing done today   | Found an Android API that allows to view images in different media forms and stores them in a media Gallery.   | Nothing done today.  |
| 2/28/2024      | Figured out how to use external actions to start a simulator  | Nothing done today   | Nothing done today   | Reviewed the Android API code to see if it applicable to our applications  | Nothing done today.  |
| 2/29/2024      | Nothing done today  | Nothing done today   | Researched Jetback Compose and other ways for Contacts UI on Kotlin  | Scrum master reviewed the API and suggested a different approach. Nothing else done today.   | Nothing done today.  |
| 3/1/2024       | Nothing done today  | Nothing done today   | Looked into accessing contacts from users phone for Kotlin (various methods)   | Nothing done today.  | Created and declared tickets for this sprint.  |
| 3/2/2024       | Nothing done today  | Watched videos and read documentation on how to integrate the camera preview into our android app  | Discussed to delegate the task of working on ticket 38 for Frontend  | Reviwed a youtube video suggested by the scrum master on a better API  | Nothing done today.  |
| 3/3/2024       | Added PR template and automated CI  | Tried implementing the camera preview in my local test application   | Nothing done today   | Nothing done today   | Looked into android API for programmatically accessing, changing, and saving device settings.                                  |
|                |   |  |  |  |  |
|                |   |  |  |  |  |
| Tasks Assigned |   | Sprint Retrospective   |  |  |  |
| Member         | Task  | What went well?  | What did not go well?  | What did we learn?   |  |
| Ahmad          | <a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-49">https://ahmad-hakim.atlassian.net/browse/CSCC01-49</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-50">https://ahmad-hakim.atlassian.net/browse/CSCC01-50</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-77">https://ahmad-hakim.atlassian.net/browse/CSCC01-77</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-91">https://ahmad-hakim.atlassian.net/browse/CSCC01-91</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-92">https://ahmad-hakim.atlassian.net/browse/CSCC01-92</a> | Able to figure out how to implement github actions after it taking a while.<br>Epics were split clearly between team members so everyone knew their responsibilities well. | Every member was extremley busy with work/school making it hard to get work done   | Get a better knowledge of each members commitments outside the scope of the course to plan what to take into the sprint better   |  |
| Asad           | <a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-97">https://ahmad-hakim.atlassian.net/browse/CSCC01-97</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-89">https://ahmad-hakim.atlassian.net/browse/CSCC01-89</a>  | Backlog management was done well last week.<br>Able to cancel meetings swiftly based on peoples availability.  | Midterms season so most people couldn't complete tasks assigned.<br>Had to cancel most meetings again because of midterms<br>Did not fill out daily standup doc on a <i>daily</i> basis<br>Did not properly estimate amount of work on some US | To better communicate with the scrum master and the team (to be more responsive on the team chat)<br>To only take on tasks and US we know for sure we can complete within the sprint to decrease the amount of carry overs |  |
| Kody           | <a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-38">https://ahmad-hakim.atlassian.net/browse/CSCC01-38</a>   | Clear vision of what we are all doing so there is no overlap and so we be accountable for each other.  | Would've hoped to have start coding but it was a lot more to plan than expected.   | Incremental progress accumulates significantly over the course of a sprint.  |  |
| Rayyan         | <a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-18">https://ahmad-hakim.atlassian.net/browse/CSCC01-18</a>   | Team tasks were split up clearly.<br>There is good team communication with the scrum master.<br>Scrum master has a lot of knowledge to help others.                        | Heavy course load for the entire team so moving forward took longer than expected  | small sets of work adds up to a lot by the end of the sprint   |  |
| Faizan         | <a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-60">https://ahmad-hakim.atlassian.net/browse/CSCC01-60</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-59">https://ahmad-hakim.atlassian.net/browse/CSCC01-59</a><br><a href="https://ahmad-hakim.atlassian.net/browse/CSCC01-58">https://ahmad-hakim.atlassian.net/browse/CSCC01-58</a>   | decreasing time wastage.<br>Epics & tickets were efficiently laid out for teammates to pertain to.<br>Most members were successfully able to delve into API                | Course load came into the way of project work a lot as most teammates had multiple midterms & assignments due this week.   | We have a better idea of how much work is reasonable to expect on a one-week sprint as well as on other things such as the workload for remaining epics, meeting availibity expectations, etc.                             |  |
